INFORMATION

PROFILE

MAGNAFAT brand rumen bypass fat is a calcium salt of long chain fatty acids manufactured for Energy Feeds International, LLC. The manufacturer's proprietary manufacturing process ensures that **MAGNAFAT** contributes calcium salts of long chain fatty acids of the highest purity. **MAGNAFAT** is a safe, concentrated energy source that will not interfere with rumen fermentation. Calcium salt energy supplements have consistently demonstrated nutritional benefits when cows require rations of increased energy density. Nutritionists and progressive dairymen can utilize **MAGNAFAT** to improve their feed formulations, maximize milk production and increase profitability. The enhanced dietary energy gained when feeding **MAGNAFAT** can also improve body condition and reproduction.

GUARANTEED ANALYSIS:

Crude Fat (Min.)	82.5%
Calcium (Min.)	8.0%
Calcium (Max.)	9.5%
Moisture	3-6%

INGREDIENTS:

Calcium salts of long chain fatty acids, BHT (as preservative).

TYPICAL FATTY ACID PROFILE:

Palmitic (16-0)	42 - 50%
Stearic (18-0)	3 - 8%
Oleic (18-1)	35 - 40%
Linoleic (18-2)	9 - 13%

ENERGY VALUES:

Net Energy of Lactation — 2.96 Mcal/lb.

PACKAGING:

MAGNAFAT is available in 50 lb. net weight multiwalled bags, palleted and stretch wrapped, bulk and in one (1) ton poly bags.

BULK DENSITY:

The bulk density of **MAGNAFAT** is 28–32 pounds per cubic foot, to assure uniform mixing in most situations.
